

INDICATOR™ BLUE

Spray Pattern Marker

For Turf, Landscape, Industrial, Municipal, Utility, and Rights-Of-Way Uses.

NET CONTENTS: 0.946L or 4.0 L

ACTIVE INGREDIENTS: Dye, coupling agents & inert Ingredients.....100%

GENERAL INFORMATION

INDICATOR BLUE is an easy-to-use, concentrated liquid spray marker colorant. It is non-toxic and has been developed for use as a temporary blue spray indicator that can be added to pesticides and other liquid spray solutions. INDICATOR BLUE helps the applicator know where they have sprayed by showing a highly visible but temporary blue marking. It dissipates quickly and mixes well with many liquids. Knowing where you have sprayed helps prevent costly overlaps and skips. It can also indicate drift and improper application.

INDICATOR BLUE can be used in many areas such as golf courses, athletic fields, utility areas, cemeteries, parks, lawn care, municipal properties, rights-of-way, industrial, forestry and many other grass areas.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin, eyes and clothing. Do not take internally.

PRECAUTIONARY STATEMENT

Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment wash-waters, or spray waste. Wear eye protection and rubber gloves when handling or using INDICATOR BLUE.

STORAGE AND DISPOSAL

Store in original container only. Keep container tightly closed and do not allow water to come in contact with the container contents. Store above 0 °C to prevent freezing. Do not contaminate food or feed by leak, spill or disposal of product. Do not store with oxidizing agents or ammonium nitrate. Triple rinse and offer for recycling or disposal in accordance with local, provincial and federal regulations.

APPLICATION RATES

Shake well before using. Apply 0.946 L of INDICATOR BLUE per 378.5 L of spray mixture. For backpacks add 2.5 mL/Litre or 50 mL/20Litre. Add INDICATOR BLUE to the spray tank when it is half full. The rate can be adjusted up or down. Higher rates will increase the darkness of the spray pattern. Colouration may vary with turf colour and height, spray rates, and water conditions.

For optimal rates of INDICATOR BLUE, test with the spray solution and rate of INDICATOR BLUE before use and adjust as needed. Find a rate that is functional and economical.

INDICATOR BLUE can be used with any type of sprayer including backpack, wand, or any other type of sprayer. Lower rates could be used for bare ground, gravel and highway rights-of-way. The recommended rate may be used more for lawn, landscape and large turf areas and utility rights-of-way. Adjust rate for functionality and economics.

FIRST AID

Inhalation: Move victim to fresh air. Give artificial respiration ONLY if breathing has stopped. Give cardiopulmonary resuscitation (CPR) if there is no breathing AND no pulse. Obtain medical advice **IMMEDIATELY**.

Skin contact: Flush skin with running water for a minimum of 20 minutes. Start flushing while removing contaminated clothing. If irritation persists, repeat flushing. Obtain medical attention **IMMEDIATELY**.

Eye contact: Immediately flush eyes with running water for a minimum of 20 minutes. Hold eyelids open during flushing. If irritation persists, repeat flushing. Obtain medical attention **IMMEDIATELY**.

Ingestion: If victim is alert and not convulsing, rinse mouth out and give 200-300 mL (1 cup) of water to dilute material. If spontaneous vomiting occurs, have victim lean forward with head down to avoid breathing in of vomitus, rinse mouth and administer more water. Obtain medical attention **IMMEDIATELY**.
